

## **Home Inventory Checklist**

The attached sheets are a general guideline for inventorying your home or business. You may wish to attach additional sheets to write down items that are not mentioned on our checklist. In addition, the extra blank under each item provides space for you to include the model number or other identifying information regarding a particular item. For example, if you have a couch you may wish to find the tag and write down the name of the manufacturer and any other identifying information regarding the couch. If you write down just the year you bought it and the cost but are unable to locate a receipt or proof of payment, the manufacturer and model number will greatly assist you in proving the replacement cost.

It is preferable that this list be used in conjunction with photographs, video, or receipts and that it is kept offsite.

**Kitchen**

<b>Number of Items</b>	<b>Item</b>	<b>Year Purchased</b>	<b>Cost</b>
	Dishwasher		
	Refrigerator/Freezer		
	Separate freezer		
	Compactor
